

RAPID DEPLOYMENT • SUPERIOR HYGIENE BUILT FOR CRITICAL INCIDENTS

Designed for emergency response, disaster relief, wildland fire incidents, military operations, workforce camps, and large-scale events. Our Mobile Handwash Stations provide reliable handwashing capabilities wherever they are needed. Built for rapid deployment and continuous operation, our units help agencies maintain sanitation, reduce the spread of illness, and meet hygiene requirements in remote or temporary environments.

KEY FEATURES

- Self-contained operation
- Hot running water
- On-demand water heating system
- Commercial-grade water pumps
- Soap dispensers
- Paper towel dispensers
- LED work lighting
- Stainless steel countertops
- Mirror at each station
- Designed for high-volume use
- Built for remote and off-grid operations

SELF-CONTAINED OPERATION

Our Mobile Handwash Stations are designed to operate independently when infrastructure is unavailable.

- Freshwater storage
- Wastewater containment
- Generator powered
- Optional utility hookups
- Solar panels
- Continuous operation in remote locations

SANITATION & HYGIENE

Providing clean handwashing facilities is one of the most effective ways to reduce the spread of illness causing contaminants during emergency operations.

Our stations help support:

- Incident personnel
- Emergency responders
- Medical support teams
- Utility restoration crews
- Disaster survivors
- Large workforce camps

Designed for frequent daily use while maintaining a clean, professional appearance throughout deployment.

**BUILT FOR RAPID DEPLOYMENT • DESIGNED FOR MAXIMUM HYGIENE
KEEPING CREWS HEALTHY, SAFE AND MISSION-READY**
